

Audible/Visual Alarm Beacon

| Overview |

This high output alarm sounder has an integral LED array beacon that is ideal for use with Flamefast Gas Detection systems as well as general signalling applications such as fire, security and process control.

| Key Features |

- 24VDC, 24VAC & 230VAC Options available
- Adjustable sounder volume
- Multiple tones available

Dimensions

Height	86 mm
Width	86 mm
Depth	AC - 102 mm / DC – 77mm

Technical Specification

Power Consumption	60mA @ 24VAC/DC 20mA @ 230VAC
Sound Outputs	100dB @ 1 meter
IP Rating	IP66
Colour (Housing)	Red (RAL3000)
Colour (Lens)	Red
Approval	CE

Part Numbers & Options/Accessories

Part No	Description
AV24D	Audible Visual Alarm Beacon – 24VDC
AV24A	Audible Visual Alarm Beacon – 24VAC
AV230	Audible Visual Alarm Beacon – 230VAC

Carbon Monoxide Alarm Indicator

| Overview |

When linked to a Flamefast BoilerGuard or Monicon system, the Carbon Monoxide Alarm Indicator is designed to be mounted outside of the area being monitored to give a clear warning of any dangerous gas build up prior to entry.

The fascia mounted mute button allows the sounder to be silenced however the visual alarm will remain active until the alarm system is reset.

| Key Features |

- 230VAC Power Supply
- Fascia mounted mute button

Dimensions

Height	180 mm
Width	130 mm
Depth	77 mm

Technical Specification

Power Supply	230VAC
Sound Outputs	85dB @ 1 meter
IP Rating	IP66
Colour (Lens)	Amber
Approval	CE
